

RENDX

PLASTER SYSTEM

Arrange your own damp proof course re-plastering work and retain the full benefit of our 20-year guarantee.

RendX Primer (5 litre container)

- Ready to use formulation
- Applied to brickwork before plastering
- Reduces the risk of plaster cracking
- Reduces salt contamination problems
- Covers 10m²

Sikamur Dry (25kg bag)

- Specially formulated for damp proof course re-plastering
- Simply add 5 litres of water (approx.) and mix with a paddle mixer
- Use with RendX to end split-liability damp proof course guarantees
- Covers 1m² at 18mm thickness

The RendX plastering system allows you to save money without compromising your damp proof course guarantee.

RendX allows you to make a significant saving while retaining a guarantee you can rely on and pass on should you sell your property.

3 steps to guaranteed plaster performance

- Apply RendX primer to brickwork
- Apply 2 coats of Sikamur Dry
- Apply plaster skim using board finish or multi-finish

Product data and safety sheets are available at www.dampexpert.com or on request.

Where to purchase RendX Primer and Sikamur Dry

RendX Primer and Sikamur Dry can be purchased through Abbott Damp Proofing Ltd or online at www.dampexpert.com

You should retain the purchase order number as it is required when you register your guarantee.
